

2020 readiness toolkit

Meeting of the Minds© with Emergenetics®

Online program

The program allows participants to get insights into how they collaborate and also practice different strategies and techniques to communicate better. The specific objectives of the program can be set based on a deeper needs' analysis.

Objectives

- Collaborate better
- Understand preferred ways of working of self and others
- Interact more effectively with peers and partners

The solution proposed – Meeting of the Minds© with Emergenetics®

- The workshop uses the **Emergenetics®** Profile, a neuroscience profiling tool which enables participants to discover their thinking and behavioral preferences and to experience interactions with different profiles. This has immediate impact on understanding how they and others prefer to communicate, make decisions, drive results, and work through job-related tasks. The workshop is very interactive, as participants discover their profile progressively and intuitively, through practical activities.
- **Emergenetics®** is a profiling instrument based on scientific research that indicates that individuals are both genetically pre-wired to think and act in certain ways, and that these traits change as a result of social and environmental factors

– i.e. we change because we **emerge** from our life experiences. It is the combination of genetics and experiences that intertwine to form recognizable patterns.

Agenda

- Pre-course: participants take the Emergenetics® questionnaire and download the Emergenetics+ mobile app
- During the course (General Agenda): Introduction, The Emergenetics® Model, Emergenetics® Overview (the 3 Behavioral Attributes, the 4 Thinking Preferences), Analyzing the Profiles, If this Room were a Brain, Reflections and summary
- Post-course: adding the participants in a private online group where they can find resources, tips & tricks and share insights with the community of Meeting of the Minds© participants.

Logistic details

Structure of the workshop (to be decided according to participants' availability) – 6-hour online workshop on Zoom platform:

2h (first day) + 2h (second day) + 2h (third day) – first two modules consecutive days, third module TBD with participants

Number of participants: **6-12**

Technology:

- Zoom – easy to use, interactive, visual; breaking rooms for group work, chat
- Mentimeter – for brainstorming and polling
- Facebook closed group – for follow-up
