

# Exploring Romanian<sup>©</sup>

Online programme

The program addresses people who have basic knowledge of Romanian or have completed the Discovering Romanian© level. It represents a deeper dive into the language and allows participants to refine their communication skills in Romanian, as well as their cultural savvy.

### The solution proposed – Exploring Romanian©

This second level helps participants have more detailed conversations, using extensive vocabulary. They will be able to sustain longer, more elaborate interactions and express more nuanced points of view on a wider range of topics. While the communicative approach and focus on fluency remain, the course offers participants a closer look at and extended practice of more complex structures they will need to attain a higher degree of sophistication in expressing themselves.
